**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-51 and 70-82, and, drawn to healthcare management, classified in class 705, subclass 2.
  - II. Claims 52-69, drawn to finance and funds transfers, classified in class 705, subclass 39.
  - III. Claims 83-93, drawn to claims processing, classified in class 705, subclass 4.
  - IV. Claims 94-105, drawn to surveying, classified in class 705, subclass 10.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III, and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as establishing an account for a retirement plan. Invention III has a separate utility has such processing of automobile insurance claims. Invention IV has a separate utility such as evaluating/assessing system accuracy and customer satisfaction. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper. Furthermore, because the search required for Groups

I or II is not required for Groups III or IV, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
